Corrigendum

In the paper entitled "Predicting hydrophobicity of silica sol-gel coated dyed cotton fabric by artificial neural network and regression", *Indian Journal of Fibre & Textile Research*, Vol. 41, March 2016, pp. 67-72,

(i)   Caption of Fig.1 (page 69) should read as
       Fig. 1—Architecture of ANN model [b – bias term and ($\bullet$) –synaptic weight].

(ii)   The footnote in Table 4 (page 70) should read as
       MAE = Mean absolute error".

(iii) Equation (3) (page 71) should read as

       Hydrophobicity [AATCC spray rating] =
       $76.746 + 60.988 \times (X_1) + 1.125 \times (X_2) + 0.938 \times (D_1) + 0.938 \times (D_2)$ … (3)

       $D_1 \begin{cases} 1 = \text{Reactive dye} \\ 0 = \text{Direct dye} \end{cases}$, $D_2 \begin{cases} 1 = \text{TEOS} \\ 0 = \text{TMOS} \end{cases}$
